

Building To Serve You Better.

Clovis Community's expansion will give patients innovative and enhanced processes for scheduling, registration and navigating our hospital. The expansion will also increase our total hospital capacity to include 352 all-private rooms for a premium patient-care experience.

STREAMLINED FROM THE START

- Hospital inpatients can access educational videos, get to know their care team, and make requests through MyChart Bedside
- Online payment, pre-registration, and self scheduling for select services through MyHealthMate, our health system mobile app
- One main hospital entrance with digital check-in upon arrival & an expedited registration process
- Improved digital wayfinding & navigation assistance

ADDED 5 FLOORS, 144 NEW PRIVATE ROOMS

- 24 ICU beds with convenient access to surgical suites
- 30-bed step-down & telemetry unit
- 90 medical/surgical beds

EXPANDED EMERGENCY, IMAGING & SURGICAL SERVICES

- Expanded and redesigned emergency department
- 12 new emergency department beds
- New rapid assessment & special care unit services
- Expanded and centralized imaging department near the emergency department
- State-of-the-art Phillips Healthcare CT/MRI equipment, an added interventional radiology procedure room & 13-bay prep and recovery area
- 6 new inpatient operating rooms for added surgical capacity and access to a state-of-the-art GE Healthcare OEC flat panel digital c-arm for enhanced imaging control

EXPANDED SUPPORT SERVICES

- Kitchen & dining - including new food options and additional indoor & outdoor seating
- Laboratory
- Inpatient pharmacy
- Energy plant

HEART & LUNG INSTITUTE

The Heart & Lung Institute will bridge the strengths of Community's three acute-care hospitals and take cardiothoracic and pulmonary care to new levels by adding technology and services at Clovis Community.

- Centralized patient registration for both inpatient & outpatient services
- 3 new cath labs
- 2 new cardiac operating rooms
- 1 hybrid operating room equipped with surgical & medical imaging devices
